

# Apply for a school

## 2018-2019

### Important information

There is a new community area for admission to Polegate School and Willingdon Primary School. This will give priority for families living in the new area who prefer these schools. See page 26 to view the new area.

# Introduction

## Message from the Director of Children's Services

### Dear parent/carer

Deciding on a school is an exciting and sometimes daunting process for parents and children alike. It is a big step in children's lives and we understand the importance of making a well informed decision about the school you would like your child to attend.

All the information you need is in this booklet. Please read it carefully and keep it for reference as it explains how and when to apply for places and how we will deal with your application. You might also find it helpful to visit schools to see what they can offer and talk to the teachers as schools are constantly developing and changing.

All schools produce a prospectus that contains useful information for parents. You can ask the school to send you a copy or you can collect one when you visit. There are an increasingly diverse range of schools to choose from, including Community and Voluntary Controlled schools, Voluntary Aided church schools, Academies, a Free school and a University Technical College available for students in Year 10 upwards. Whatever the type of school your child attends, the County Council is committed to securing the best possible experience and outcomes for all East Sussex children.

Please bear in mind that you have the right to express a preference for a school which is not the same as choosing the school where your child will attend. Sometimes there are more applications for a school than there are places available. When this happens, places will be offered by referring to the admissions criteria and some applications will be unsuccessful.

Admissions criteria are a set of rules which are used to allocate places when schools have too many requests for places. Criteria changes from school-to-school and sometimes even year on year so you will need to understand the rules for the schools you prefer as it will help you assess how likely it is that your child will get a place.

It's certainly possible the arrangements have changed since sending another child in your family to school and this may affect the outcome of your application. For instance, at local authority controlled schools, the rules have recently changed in respect of siblings and the way we measure home to school distances. For entry in 2018/19, there's a change to the primary community area in Eastbourne which may affect entry to Polegate and Willingdon primaries. Whichever school(s) you prefer, please ensure you are fully aware of the policies before applying.

Once you have decided which schools you like, please make sure you apply by the stated closing date to give you the best chance of securing a place at your preferred school.

By applying on time, you will know that your application will be considered alongside all other applications for that school. If your application is late, there is a risk that your preferred school would have already been filled.

Finally, I wish your child every success in an East Sussex school.

**Stuart Gallimore**  
**Director, Children's Services**

# Schooling in East Sussex

## ►Types of schools available in East Sussex

This section lists the various types of schools available. All are subject to inspections by Ofsted and offer education for children of all abilities (apart from special schools). We do not have any grammar schools and no schools select children by academic ability or aptitude.

### Academy schools (A)

Academies are all-ability schools set up by sponsors from business, faith or voluntary groups. They are not maintained by the local authority. They are independent schools funded by central government. The governors set their own admission arrangements and decide how pupils are admitted.

### Community schools (C) and voluntary controlled schools (VC)

The local authority (East Sussex County Council) is responsible for school admissions and decides how pupils are admitted. Community and voluntary controlled schools are managed by the head teacher and governors in partnership with the local authority. Voluntary controlled schools have links to the Church of England.

### Free schools (F)

Free schools are non-profit making, independent, state-funded schools for children of all abilities. The governors set their own admission arrangements and decide how pupils are admitted and what they are taught.

### Studio schools (S)

Studio schools cater for 14 to 19 year olds and combine traditional academic and vocational qualifications with work experience to prepare young people for employment within the creative industries. The governors set their own admission arrangements and decide how pupils are admitted.

### Trust schools (T)

Trust schools are run by their own governing body but have formed a charitable trust with an external partner – for example, a business or educational charity – aiming to raise standards. The governors set their own admission arrangements and decide how pupils are admitted.

### University technical colleges (U)

University technical colleges are open to 14-19 year olds and specialise in subjects like engineering and construction. Pupils study academic subjects as well as practical subjects leading to technical qualifications. The curriculum is designed by the university and employers, who also provide work experience for students.

### Voluntary aided church schools (VA)

Voluntary aided church schools are responsible for setting their own admission arrangements and deciding how pupils are admitted. The governing body contributes to building and maintenance costs.

In many cases the governors ask parents to complete a supplementary information form (SIF) in addition to the school application form. This extra information enables schools to rank applications correctly against their admissions criteria.

Priority is normally given where parents can demonstrate a commitment to the religious faith of the school. Please bear this in mind if you decide to name a VA church school as one of your preferences.

### Special schools and specialist facilities

We are fully committed to inclusion and many children with specific difficulties attend their local mainstream school. Children whose needs cannot be met in a mainstream setting have their educational needs met in a special needs facility or a Special School. The placement would normally be named in the child's statement of special educational needs or Education, Health and Care Plan (EHCP). **For more information on which schools have a special facility and what type of provision is offered, see the sections on primary and secondary schools starting on pages 30 and 47 respectively. For Special Schools see page 51.**

## Apply for a school 2018-2019

### ► Starting school and compulsory school age

Children reach compulsory school age at the start of the school term following their fifth birthday. However, all children can start school in the September following their fourth birthday.

All children are entitled to attend full-time but there are flexible options for parents who do not feel their child is ready for full-time attendance. Children may attend part-time until they reach compulsory school age or you can defer entry until later in the school year but not beyond compulsory school age and not beyond **23 April 2019**. If your child does not start school by this date you will need to re-apply for a school place. Please discuss your options with the head teacher once the school place has been offered as their advice may ease any concerns you may have.

Guide to when children may attend or must attend school on a full-time basis			
Child's 5 <sup>th</sup> birthday between	Start of Term 1 (Autumn term)	Start of Term 3 (Spring term)	Start of Term 5 (Summer term)
1 September 2018 - 31 December 2018	may attend full or part time	<b>must attend full time</b>	<b>must attend full time</b>
1 January 2019 - 31 March 2019	may attend full or part time	may attend full or part time	<b>must attend full time</b>
1 April 2019 - 31 August 2019	may attend full or part time	may attend full or part time	may attend full or part time

Children whose fifth birthday falls after 31 August 2019 **will not**, under any circumstances, be admitted to school in the 2018-19 school year.

### ► Requests for deferred admission for summer born children

**Summer born** children (born between 1 April and 31 August) do not reach compulsory school age until the September after their fifth birthday, at which point they would normally join Year 1. However, some parents may request their child be admitted out of their normal age group and start in Reception rather than Year 1 when they reach school age. We call this *deferred admission* – visit [eastsussex.gov.uk/summerborn](http://eastsussex.gov.uk/summerborn) for further information.

If you request deferred admission for your child you **must**:

- Apply for a school place for your child's normal age group by **15 January 2018**.
- At the same time, print off and complete the *deferral* application form (available at [eastsussex.gov.uk/summerborn](http://eastsussex.gov.uk/summerborn)) and hand a copy in to each school for which you are making a request. Once complete send a copy to [admissions@eastsussex.gov.uk](mailto:admissions@eastsussex.gov.uk) by the closing date above.

We need one form for each school because it is for each admissions authority to reach a decision. At local authority controlled schools, a decision will be made on the information provided in consultation with the relevant head teacher. If there are exceptional reasons why you cannot make your request by the closing date, late requests will be considered up until 31 March but this is the final deadline.

A response will be sent to you on or before **16 April 2018**.

If your request is **agreed**, the application for starting school in September 2018 will be withdrawn and you will need to apply for a school place by the closing date next year. Please be aware you will not necessarily be offered a place at your preferred school, and if the school you are offered has a different admission authority they may not agree to allow your child to start in Reception at that point.

If your request is **refused**, you cannot appeal against this decision but you will need to decide whether to accept the offer of a place for the normal age group or decline it. If you decline the offer, you will need to make an In-year application (*see page 16*) in time for your child to join Year 1 for the start of the 2019-20 school year.

Whether your child enters Reception or Year 1 they must attend full-time if they have reached compulsory school age.

**Other age groups** – Once a child has been admitted to a school it is a matter for the head teacher as to how best to educate them. Any decision to move to a different age group should be based on educational reasons and head teachers will need to be satisfied that an appropriate curriculum cannot be offered in the normal age group.

# Special Educational Needs (SEN)

## ►What is SEN?

Your child may have learning difficulties, physical or sensory difficulties or emotional, social or behavioural difficulties. These difficulties might make it harder for them to learn and make progress at school.

Your child's educational development will be monitored by their school. The school will assess your child and, if necessary, will arrange support to meet your child's needs. Our schools have the skills and funding to meet the requirements of children with special educational needs.

## ►What extra support is available?

There are different types of support in schools which might benefit your child. For example, it might be necessary for your child to be taught in a particular way. Your child may use different books or equipment or do small group work or follow a specific programme of learning. Your child may have support from a teaching assistant in class. Schools should involve you in planning and reviewing your child's special educational support.

Most children's needs are met by the school providing additional support using school resources. There are also a range of support services available for children, for example, for children whose first language is not English or for children who are too unwell to attend school. Schools will be able to offer you guidance or put you in touch with the relevant service.

Each child will have a plan which sets out what the specific needs are and how those needs will be met in school. Some children with special educational needs and/or a disability may require more support and may have an Education, Health and Care Plan.

## ►Selecting schools

Most children with special educational needs go to a mainstream school where they can make friends locally and be part of their community. Some are supported by specialist facilities in mainstream schools and some go to special schools.

If your child has special educational needs, ask your child's current school or pre-school to help you plan the move to their new school. You can also visit the Special Educational Needs Co-ordinator (SENCO) at the schools you are interested in. You can explain your child's needs and ask what support they will receive.

## ►Application process

If your child has special educational needs but does not have a Statement or an Education, Health and Care Plan, you will need to follow the application process in this booklet. Schools should admit children according to the published criteria only. They should not consider a child's special educational needs when deciding whether to offer a place to a child.

Different arrangements apply for children with a Statement of Special Educational Needs or an Education, Health and Care Plan. You should tell your Assessment and Planning Officer which school you would like your child to attend and they will then explain the next steps.

## ►Need more information?

You can get more information on SEN and admissions from the Assessment and Planning Team at [sen.caseworkassistants@eastsussex.gov.uk](mailto:sen.caseworkassistants@eastsussex.gov.uk)

# Find out about schools

## ► Information gathering

You will probably have an idea of some of the things about a school that are going to be important to you and your child. You may have talked to other parents whose children already attend a particular school. Their ideas and opinions may be helpful, but you should always base a decision about schools on your own judgement. It is important, therefore, to find out as much as you can about individual schools and you may wish to consider the points in this section when deciding which school you would like your child to attend.

## ► School visits

We suggest you look round schools to see what they have to offer and get a general impression. Schools organise open days or arrange visits for parents to view schools and meet staff. Before you go, it might be useful to think of some questions to ask during your visit.

Please contact the schools of interest to you for more information. Contact details start on **page 30**.

## ► School prospectus

Every school produces a prospectus each year containing information about the school, such as school policies, after-school activities, curriculum matters and performance related results. A prospectus can also give you an idea of a school's character and aims. Prospectuses are available at all schools, free of charge.

## ► Inspection reports

The Office for Standards in Education (Ofsted) regularly inspects schools. You can get a copy of a school's most recent inspection report from the school on request. Alternatively, inspection reports are available online at [ofsted.gov.uk](http://ofsted.gov.uk) where you can find more information about the inspection process.

## ► Performance data

Schools provide results of their own National Curriculum testing in their prospectus. The Department for Education (DfE) publishes national achievement and attainment tables each year and these can be found online at [education.gov.uk](http://education.gov.uk)

A variety of factors need taking into account when comparing results between schools as pupils differ in terms of ability, background etc. Test results are only a 'snapshot' of a given age group and should not be seen in isolation from other strengths a school has to offer.

## ► School websites

Many schools have their own website and individual web addresses are listed in the school details later in the booklet. You can also search for school details on our website at [eastsussex.gov.uk/findaschool](http://eastsussex.gov.uk/findaschool)

# Understand the admissions process

Once you have visited schools and decided which ones to apply for, you will need to consider a number of other factors which will have a bearing on whether your application will be successful. We recommend you read this section with care.

## ► Co-ordinated admissions at the normal age of transfer

We are required to operate co-ordinated admission schemes for primary and secondary admissions. The schemes ensure the sharing of information between all admissions authorities in the county, as well as close liaison with neighbouring authorities. Co-ordination means that all applications are treated fairly and ensures that each child is only allocated one school place.

## ► A preference, not a choice

You do not have the right to choose your child's school. You have the right to state a preference for the school you would like your child to attend. The ability to meet with your wishes will depend on demand for places at individual schools. If a school receives more applications than it has places, the admissions criteria for the school will decide which children will be offered places.

## ► The allocation procedure

Each school has a set of rules (known as admission criteria) to be able to rank children in the order they will be offered places if a school attracts more applications than places. As all preferences have to be treated equally, this could mean that some places are allocated to second and third preference applicants, whilst first preferences are refused because they have a lower priority in the criteria.

It is essential that you take a look at the admission criteria for the schools you prefer as it will help you assess how likely it is that your child will get a place. The admission criteria differ between schools and are set out in separate sections at the back of this booklet.

The relevant criteria are applied individually to each of your preferences. If your child meets the criteria for a place at more than one of the schools named on your application, the highest ranked school will be offered.

If your child meets the criteria for a place at only one of your preferred schools then that school will be allocated. If none of the schools named on your application can be offered, a place will be allocated for your child at the nearest school to your home with a place available. Only one school place will be offered on the allocation day.

*Here's an example to describe how the process might work.*

Serge lives in the area served by School Y. His parents prefer him to attend School X. They fill in the application form as follows:

- Preference 1 - School X
- Preference 2 - School Y
- Preference 3 - School Z

School X receives more applications than places and the admissions criteria has to be applied. The school is filled with children living inside the school's area and Serge's address falls outside of the school's area. This means a place cannot be offered as he falls into a lower priority. However, Serge meets the criteria for a place at both School Y and School Z. A place will be offered at School Y because it was listed as a higher preference.

### ► Compelling reasons

Although community and voluntary controlled schools do **not** have criteria which refer to a child's exceptional medical or social needs, many admissions authorities do.

Parents applying under such a criterion must be supported by documentary evidence (such as a letter from a doctor or social worker). Any evidence must conclusively show that only the preferred school can meet the child's needs and that other schools are unsuitable.

Decisions can only be based on the information you supply. It is important, therefore, that you provide the information you want to be considered *before* decisions are reached. If you supply additional information after schools have been filled, it will be left for an appeals panel to decide the outcome (*see School admission appeals on page 15*).

Please note that a child's ability or aptitude in a particular subject does not represent a compelling reason.

### ► Other relevant information

- **The admission number**

The number of places available at each school is known as the 'admission number'. Admission numbers are linked to a school's accommodation and its organisation. Keeping to admission numbers ensures that children receive an effective education and correct levels of support.

Normally, it is only possible to refuse an application if the number of applications exceed the admission number. The admission number is therefore an important factor in the process. The proposed admission number for each school is given in the school details later in this booklet.

We are committed to meeting parents' wishes but places at schools are limited. We will not overcrowd a school if there are vacancies at other schools and we will not create additional places unless there is a shortage of school places to meet a local need.

- **Children with Statements of SEN or Education, Health and Care Plan**

Children with Statements of Special Educational Needs or an Education, Health and Care Plan have priority for school places. Once a school is named in the Statement or Plan, that school must admit the child. This will reduce the number of places available for other children.

- **The infant class size law**

The law requires children aged 5, 6 and 7 to be taught in classes of no more than 30 pupils to one school teacher. Admission numbers at the majority of schools admitting Reception age pupils have been set to ensure compliance with the class size law (*see Appeals and the infant class size law on page 15*).

- **Twins and children from multiple births**

Where the admission of both twins or all siblings from a multiple birth would cause a community or voluntary controlled school to rise above its admission number, both twins or all the siblings will be admitted. Where the admission of the additional child or children from multiple births would result in the admission number rising above 30 (or multiples of 30), the additional child/children are permitted exceptions to the Infant Class Size legislation throughout the infant phase or until the number in the year group reduces to the admission number. At own admission authority schools it is likely that both twins or all the siblings will be admitted but this is not always the case.

## Apply for a school 2018-2019

### ►The importance of where you live

Each East Sussex address will fall into an area served by a certain school or set of schools. Where you live can make a difference to the outcome of your application. Generally speaking, the closer you live to your preferred school, the better your chances of getting a place. Living in a community area does not guarantee a place at a particular school and sometimes your 'community area' school may not actually be your nearest school. Some own admission authority schools do not use areas to decide applications. Please check the school's admission criteria if you are in any doubt.

Maps showing the community areas are included in this booklet starting on **page 24 for primary school areas and page 45 for secondary schools.**

If you are unclear which community area your address falls into, please contact the Admissions Team.

You must state your child's home address which should be a residential property that is your child's only or main residence and not an address at which he or she might sometimes stay or sleep.

If your child regularly stays with another parent or relative and therefore has more than one address, the school place will be allocated based on the address at which your child spends the majority of weekday nights during term time.

If you give two addresses, we will decide which address should be used as the main residence for the purpose of processing your application because we only accept one current address. Evidence may be required to confirm the address given and we reserve the right to check the information you supply.

If you have any questions about addresses please contact the Admissions Team who will be happy to discuss this with you **before** you apply.

#### • Moving house

We are not able to hold back places at any schools for children moving house after the allocation of places. So if you move locally or into East Sussex late on in the process, your child will be allocated a place at the nearest school with spaces if your preferred school is full.

We will only use a new address for the purpose of allocating a school place when contracts have been exchanged or when a tenancy agreement (usually of 12 months) has been signed. Until such evidence can be provided, we will process your application based on your existing address.

We may also ask for additional evidence to confirm a move has taken place. This may include getting you to provide a copy of a council tax or utility bill for your new address and/or evidence that you will not be returning to your previous address.

### ►Demand in the previous school year

To help you assess your chances of getting your preferred school we have given details about the number of preferences stated for each school last year. **For community and voluntary controlled schools**, we have given details of how the places were allocated against the admission criteria.

If we had to restrict entry to a school by distance, we have given the distance (in metres) of the last child gaining a place within that admission priority. You will need to note that the level of preferences a school receives can vary greatly from year to year, so the historical information given should only be used as a guide. The detail can be found in the sections on **primary** and **secondary** schools.

For schools where decisions are made by the governors, you will need to obtain this information from the school.

### ►Getting to and from school

In most cases, it is for you to decide how your child gets to and from school so it is important that you consider the journey when applying for schools. If it is not possible to walk to school because of the distance involved, you may wish to consider using public transport or car sharing. Most schools have school travel plans and are working with parents to reduce the use of the car.

We recommend you read the section on school transport (**pages 18-20**) which explains the circumstances where help with transport may be given. Our full transport policy can be found online at [eastsussex.gov.uk/schooltransport](http://eastsussex.gov.uk/schooltransport)

# How to apply

Once you have studied the various admission policies and looked around schools, you will be ready to apply. Before you do, there are some important things to be aware of.

- **School places cannot be guaranteed**

As the admissions criteria decides which children are offered places, no guarantee can be given. The law allows a preference and not a choice.

Whichever schools you prefer, you must name them as one of your preferences as a school can only be considered for your child if it features on your application.

You should ensure you apply by the closing date (*see page 13*) and give full details about your child's brothers and sisters. Your application may be affected if you fail to do this.

If your preferences cannot be met, your child will be allocated the closest alternative school that has vacancies after taking account of other parents' wishes. This may be some distance from your home.

- **Use all of your preferences**

You can name up to three schools on your application. Although many parents put down just one school, we recommend second and third preferences are added in case your first preference cannot be offered. This will increase your chances of being allocated a place at a school you will be happy with. Sometimes it is not possible to offer a place at any of the preferred schools.

### ► Apply online

By far the safest and quickest way to apply for a school is online at [eastsussex.gov.uk/admissions](http://eastsussex.gov.uk/admissions) Step-by-step instructions will guide you through the process. After you have checked the details you have entered, please remember to **submit** your application.

Applying online means:

- your application is safe;
- you can apply 24 hours a day, seven days a week;
- you can be sure your application has been received; and
- a decision can be emailed to you.

You can apply online from **12 September 2017**. Once you have registered with the system you can 'sign in' to view your account at a later date.

If you need to send us additional information such as a signed tenancy agreement, please indicate in the 'other reasons' section that evidence is on its way. You should clearly mark your child's name and date of birth on the top of the supporting documentation before sending it to us.

Many own admission authority schools require the completion of a supplementary information form (SIF). This will help them to rank your application correctly. Schools requiring the completion of a SIF will need to receive the completed SIF by their closing date.

Schools requiring a supplementary information form are indicated in the online system and in the criteria pages starting on *page 52* although we suggest that you check this requirement with the school in question. A supplementary information form on its own is not a valid application.

### ► Paper application forms

If you cannot apply online, you may use the application form at the back of this booklet. Notes to help you fill in the form are also at the back. Your completed form should be returned to the address specified.

If we receive more than one application for the same child before the closing date, we will use the latest application submitted.

Please do not name the same school more than once as only different preferences count.

## Apply for a school 2018-2019

### ► Applications from inside East Sussex

If you live in East Sussex you must apply through us as your 'home' authority. This rule applies whichever type of school you prefer including schools outside of the county. Applications that include schools in two or even three other admission authorities outside of East Sussex are allowed.

Once you've applied we will pass the details of your application to the appropriate admissions authority for them to apply their own admissions criteria. You must not apply direct to schools (unless it is to join an existing age group) and any applications made in this way are invalid.

Details of neighbouring local authorities are given on *page 17*.

### ► Applications from outside of East Sussex

If you live outside East Sussex and are interested in your child attending a school in East Sussex, you must apply through the local authority in which you live. Your authority will then pass us details of your application for us to consider. Your 'home' authority will be responsible for letting you know the outcome of your application.

**Scan the QR code and go to our  
online admissions webpage**

# When to apply

## ► National closing dates

Parents/carers are responsible for making sure that the application form is returned by these dates.

- **Secondary – Tuesday 31 October 2017**
- **Primary/Junior – Monday 15 January 2018**

## ► Late applications

If you apply after the above national closing dates without a good reason it will be dealt with after the 'on time' applications have been processed. If schools are filled by those who applied on time, it is most likely that we will have to offer another school which still has places. This may not be your community area school nor the same school as a brother or sister. Not knowing about the closing date or forgetting to submit your online application are not good reasons for being late.

If you have a good reason for applying late (e.g. you move house) your case will be considered as on time provided a) the application is received by **1 February 2018 (secondary)** and by **31 March 2018 (primary)** and b) at the same time you supply independent supporting evidence as to why you applied late.

In the case of a house move we will require a solicitor's letter confirming exchange of contracts, or a signed tenancy agreement clearly showing the move took place after the closing date. If there is no proof, or we do not consider the reason valid, the application will be treated as late. There is no separate right of appeal against a decision which deems an application as on time or late.

The above applies to community and voluntary controlled schools and own admission authority schools may consider late applications differently.

All applications received by **1 February 2018 (secondary)** and by **31 March 2018 (primary)** you will get a decision at the same time as those who applied on time (*see National offer dates on page 14*).

*Here's an example to describe what might happen if you apply late:*

Jules is due to start school for the first time. Her parents want her to attend School A as her brother already goes there. Her parents forget to apply and do not realise their mistake until they hear other parents talking about which schools they've applied for.

They complete the online application on **10 April**. This means Jules' form is late and cannot be considered until after all of the children whose parents applied on time. By the time Jules' form is considered, all the places at School A have been offered to other children and Jules is offered a place at School B, which is the nearest school to her home which still has space. Her parents do not receive their decision at the same time as other parents and will have to wait some time to find out where Jules will be going to school.

## ► Requests for a change of preference after the closing date

We do not have to agree to a change of preference(s) from those given on the original application. However, a change of circumstances may mean your original preferences are impractical. A new stated preference will not necessarily enable a place to be allocated because that school may already be oversubscribed by 'on time' applications. If a change of preference is accepted but it is not possible to allocate that preference, you can appeal and/or ask for your child's name to be placed on the waiting list (*see pages 14-15 for more details*).

If you wish to add a preference or revise your preference order, please put your request in an email to [admissions@eastsussex.gov.uk](mailto:admissions@eastsussex.gov.uk) explaining the basis for the change. We are not obliged to accept your request and will not do so without a good reason. By this we mean a situation which could not have been foreseen.

Each request will be carefully considered and we will let you know if we agree to your request.

## ► Parents not completing applications

The responsibility for finding out about schools and applying for places rests with parents/carers. If you do not apply for a school your child will not be allocated a place.

# Decision dates

## ► National offer dates

- Secondary - Thursday 1 March 2018
- Primary/Junior - Monday 16 April 2018

Please do not contact the Admissions Team for an early decision as it will not be made available under any circumstances.

## ► Letting you know

Decisions are sent by email on the offer day. If we are unable to email you, we will post you the decision letter. Online applicants have the ability to view the decision online. Each child is allocated one school place.

## ► Next steps

### • Accept the place allocated

If you want to accept your child's place you should complete and return the admission form (available online or by request) to the head teacher of the allocated school.

If you do not accept the place within 14 days, schools may send you a reminder to fill in the admission form. If you no longer wish to send your child to the school allocated (for example, because you are moving away) please let us or the school know in writing.

### • Request a change of school

We can look into changing your child's allocated school provided the alternative school has vacancies. Please put your request in an email to [allocationchange@eastsussex.gov.uk](mailto:allocationchange@eastsussex.gov.uk) giving the reasons and naming the school you wish to be considered. Such requests do not carry a right of appeal. If we are able to meet with your wishes, the original placement will be withdrawn as **children can only have one school place at any one time**. Please do not restate schools you've already been considered for as you can pursue places for preferred schools through an appeal or from the waiting list.

### • Place your child on a waiting list

Children can be placed on a waiting list for any school that has not been offered but was named on the application form. At community and voluntary controlled schools, waiting lists are held by the Admissions Team. At schools where the governors are responsible for making the school offer, lists are maintained at school level.

Waiting lists for children starting or transferring school in September 2018 will be maintained until Christmas 2018. Waiting lists to join an existing year group run until the end of the term in which the application is processed. Waiting list requests must be renewed at three points during the school year (at Christmas, Easter and summer holiday) otherwise names will be removed.

Waiting lists must follow a school's admissions priorities and cannot be run on a 'first come, first served' basis. As a result, a child's position can change as other pupils join or leave the list. If a vacancy occurs you will be notified in writing and your child's original allocation will automatically be withdrawn **as children can only have one school place at one time**. This will only apply until children start school. During term time you will be given 10 school days to accept or refuse the place offered.

You should therefore consider carefully before requesting to go on the waiting list or submitting a change of allocation request. If you subsequently wish to withdraw from a waiting list, or a change of allocation request then you must do so in writing to [admissions@eastsussex.gov.uk](mailto:admissions@eastsussex.gov.uk) the moment you no longer wish to pursue a place at an alternative school to the school offered to your child.

### • Appeal for your preferred school (*see page 15*)

## ► Withdrawing places

If our decision to allocate a place at a school is based on incorrect information (for example, a wrong address or date of birth has been given) the place may be withdrawn.

# School admission appeals

## ► Considering making a school appeal?

If you did not get the school place you want for your child, you can appeal to an independent appeal panel. Before making an appeal you may wish to consider the other options open to you. These include adding your child to the waiting list for your preferred school and requesting a change of allocated school (*see page 14*).

If you are considering appealing for a place for your child at an infant school, we recommend you read the 'Appeals and infant class size law' paragraph (opposite) as more than 98% of appeals for Reception classes (where the infant class size limit applied) were unsuccessful in the county in the 2016/17 school year.

## ► The appeals process

Appeal Panels can overturn the decision of an admission authority to refuse your child a place at your preferred school. If having considered your options you decide to make an appeal, the school place already allocated to your child will not be affected.

Please note:

- You can only appeal for a school named on your application. Appeals for schools not named on your original application will not be heard.
- You will need to put in writing the reasons why you are appealing and supply any additional supporting evidence you would like the panel to take into account.
- You will also be given the opportunity to explain in person to the panel the reasons for your appeal.

Appeals for community and voluntary controlled schools are arranged by East Sussex County Council and you can appeal online by visiting [eastsussex.gov.uk/schoolappeals](http://eastsussex.gov.uk/schoolappeals)

Appeals for VA church schools and foundation trust schools are administered by the governing body of the school concerned and you will need to contact the relevant school for details. For appeals to academy and Free schools, please contact us or the school concerned to find out how to appeal.

## ► Appeals and the infant class size law

Classes containing infant aged children are limited by law to a maximum of 30 pupils. Because of this, the grounds upon which a panel can uphold an appeal where the legal limit has been reached are restricted and appeals are likely to be refused.

These restrictions mean the panel can only uphold an appeal where:

- a) it finds that the admission of additional children would not breach the infant class size limit; or
- b) it finds that the admission arrangements did not comply with admissions law or were not correctly and impartially applied and the child would have been offered a place if the arrangements had complied or had been correctly and impartially applied; or
- c) it decides that the decision to refuse admission was not one which a reasonable admission authority would have made in the circumstances of the case.

For more information on appeal panel decisions and general appeal advice, please go to [eastsussex.gov.uk/schoolappeals](http://eastsussex.gov.uk/schoolappeals)

## ► Appeal panel decisions

If your appeal is successful, the decision is binding on the admission authority and the school concerned. If your appeal is unsuccessful, you do not have a right to a second appeal for the same school in the same school year.

# Apply during the school year

## ► In-year admissions

An in-year admission is defined as *the admission of a pupil to a school which takes place outside of the normal entry times*. This includes pupils changing schools, pupils coming from a different country or from other parts of the UK, pupils returning to a school from living elsewhere or those who have not been in school. You can ask for your child to change schools at any stage in your child's education.

## ► Process for newcomers to the area

You can apply online at [www.eastsussex.gov.uk/admissions](http://www.eastsussex.gov.uk/admissions)

When applications are received online we will forward them to your preferred school(s).

If you wish to know if there are places in the schools in the area you are moving to, please contact the Admissions Team.

If you want to apply before you move, you are able to do so but you will probably need to give evidence of your move such as a signed tenancy agreement or a copy of exchange of contracts.

If you apply online, you will be asked to provide the name of your child's current school or the school he/she last attended. If you can't find the details of that school, skip to the next part of the application by leaving the field blank.

We aim to process requests within 15 school days of receipt. If you apply too far in advance of needing a place, we will not process your request until nearer to your preferred start date. If a place cannot be offered at one of your preferred schools, we will allocate the closest school to your home with a place.

Applications for September 2018 for places outside the normal entry times should not be submitted under any circumstances before 1 June 2018. If such applications are submitted they will not be processed.

## ► Making an appeal

You have the right to appeal for any of the schools named on your application. We will let you know all about the process for appeals for community and voluntary controlled schools should it be necessary. If you are refused admission to a school where the governors are responsible for admission, they will tell you about your appeal rights

For more information visit [eastsussex.gov.uk/schoolappeals](http://eastsussex.gov.uk/schoolappeals)

## ► Changing schools

You may be thinking of changing schools because your child is not getting on at their current school. Before you apply, we strongly recommend that you discuss the matter with the headteacher and staff of your child's current school to try and improve things. Changing school can have a negative impact on learning and friendship groups.

The application process is the same as *for newcomers to the area*. If your child's year group is full or if there are other legal reasons for refusing your request, we will allocate a place at another school or we may suggest that your child remain at their present school if this is reasonable.

## ► Fair Access Protocol

We are legally required to operate a **Fair Access Protocol (FAP)** to ensure that all vulnerable children who are without a school place are offered a place as quickly as possible.

The FAP aims to ensure that all schools admit a proportionate number of children deemed vulnerable. To achieve this aim, it may be necessary to admit such children to schools that are already full and ahead of other pupils on a waiting list. The FAP only applies to in-year admissions.

## Apply for a school 2018-2019

### ► Private fostering

Private fostering is when a child or young person under 16 years old (or under 18 if disabled) goes to live with someone for 28 days or more by private arrangement (without the involvement of a local authority) with someone who is not their:

- Parent
- Guardian or a person with parental responsibility
- Close relative (brother, sister, aunt, uncle, grandparent or step parent).

Private foster carers might be:

- Friends of the child's family
- Someone willing to care for the child of a family they don't know; or
- Relatives not mentioned in the list above, for example a cousin or great aunt.

If your child is being privately fostered or you are a private foster carer, the law says you must tell us about it. You do not need to worry if you have been privately fostering and have not informed us, as you were unaware of the need to inform the local authority. Action is not taken against those who have acted in good faith.

If you are in any doubt about whether or not what you are doing is private fostering, please call us for advice on 01323 464222. For the purpose of admission applications, only a person with parental responsibility can apply so you may have to request that the parent submits the application. If this is not possible please contact the Admissions Team as it is important an application is still made.

### ► Applications to own admission authority schools

Many own admission authority schools require the completion of a supplementary information form (SIF), which will help them to rank your application correctly. We have indicated those schools where they require a SIF in the section on admission criteria although we suggest that you check this requirement with the school in question.

### ► Applications for schools outside East Sussex

You will need to check the in-year admissions arrangements and apply direct to the local authority where the school is situated.

They will consider your request and let you know the decision.

# School transport

In general, most children do not qualify for help with home to school transport and parents are responsible for making the travel arrangements and meeting the cost. However, some children will be entitled to free home to school transport.

This section gives useful travel information to those who have to make their own arrangements and it explains when support is available.

## ► Planning the journey to school

To help you make decisions about the school journey we have produced the following helpful leaflets:

**Travelling to primary school** – provides useful information about walking, cycling and using public transport for the school journey, along with guidance on the seat belt law, parking enforcement and car sharing.

**Travelling to secondary school** – provides useful information about school transport, travelling by public transport and the concessionary fares available along with information about walking and cycling, and the road safety training available.

You can order the above leaflets by phoning 01273 336515 or by sending an email to [schooltravelplans@eastsussex.gov.uk](mailto:schooltravelplans@eastsussex.gov.uk)

Additional public transport information regarding bus and rail routes, timetables and a journey planner can be found at [eastsussex.gov.uk/roadsandtransport/public](http://eastsussex.gov.uk/roadsandtransport/public)

## ► Vacant Seats Scheme

Requests are sometimes received from parents who wish their children to use a particular school coach. If places exist, a travel permit may be purchased. The charges are as follows:

**Secondary school children** – The cost from September 2017 is £126.50 per term (based on the six term year). A second or subsequent child from the same family is charged £94.88 for the same period.

**Primary school children** – The cost from September 2017 is £63.25 per term (based on the six term year). A second or subsequent child from the same family is charged £47.44 for the same period.

These charges are subject to review and may increase from September 2018. Payment must be made in advance of travel. Please be aware that vacant seats cannot be guaranteed and parents should not rely on places always being available as priority is given to children who qualify for free transport. **Details of the Vacant Seats Scheme are online at [eastsussex.gov.uk/roadsandtransport/public](http://eastsussex.gov.uk/roadsandtransport/public)**

## Apply for a school 2018-2019

### ► Qualifying for free home to school transport

The following paragraphs explain when transport support can be given. If you are in any doubt the easiest and quickest way to view our policy is online at [eastsussex.gov.uk/schooltransport](http://eastsussex.gov.uk/schooltransport)

#### Statutory walking distance

We will provide free transport between home and school if your child is eight years of age or over and lives more than three miles (4828 metres) from the **designated\*** school, or two miles (3218 metres) if your child is under eight years of age. Distances are measured by the shortest available walking route using our Geographical Information System (GIS).

**\* The designated school is the school suitable to your child which serves your area, or if there is more than one school, the nearest suitable school to your home where a place is available.**

The maps on pages *24, 26, 28 (primary) and 45 (secondary)* show the community areas across the county.

#### Route safety

Assessments do not determine whether a route is “safe” or “dangerous”. All roads may be thought of as presenting some element of road safety risk, whether they are heavily trafficked urban routes, or more lightly trafficked rural routes. Instead, the assessment determines whether transport should be provided because a child’s **only** walking route presents particular road safety hazards.

Where the suitability of a route is questioned, the Road Safety Team will look at the relationship between pedestrians and traffic and will make a formal assessment based on national guidance. Issues surrounding personal security do not form part of the assessment and it is assumed the child is accompanied by a responsible adult. There is no requirement for a route to be lit and temporary closures such as road works or flooding are not taken into account. If alternative routes are available within the statutory walking distance then assistance will not be granted.

Parents are responsible for ensuring their child has suitable clothes and equipment for the journey (for example, boots, wet weather clothes, reflective bands, torch, etc) and national guidance is quite clear that conditions such as muddy footpaths or lack of street lighting do not mean that a route is not available.

Indeed, the following will normally be considered available at all times for the home to school journey; crossing fields, wooded areas, bridleways, public footpaths and public rights of way.

#### Low income groups

Children from low income groups are defined as those who are entitled to free school meals or those whose families are entitled to the maximum level of Working Tax Credit (WTC). You will be in receipt of maximum WTC if your assessed income is lower than £6,420 in the previous tax year.

- **Primary age pupils** – Children who qualify for assistance until age eight because their **designated\*** school is more than two miles but less than three miles from their home, will continue to receive transport help if they are from a low income family.
- **Secondary age pupils** – Children from low income families will qualify for free transport to one of their three nearest schools from where they live, provided the school attended is more than two miles but less than six miles from home. Distances up to two miles are measured by using the shortest available walking route whereas the six mile upper limit uses roads only.
- **Attendance at VA church schools (secondary)** – Children from low income families attending the nearest church school on grounds of religion or belief qualify for free transport to that school if it is more than 2 miles but less than 15 miles from home. Confirmation of baptismal status or support from the parish priest/minister is required.
- **Attendance at selective schools (secondary)** – Children from low income families attending the nearest selective school qualify for free transport to that school if it is more than 2 miles but less than 15 miles from home. (A ‘selective school’ admits students on the basis of some sort of selection criteria, usually academic)
- **Attendance at VA church schools (primary)** – There is **no** transport assistance if you choose to send your child to a church school for religious reasons.

If you believe that your child is entitled to free transport on low income grounds, download an application from [eastsussex.gov.uk/schooltransport](http://eastsussex.gov.uk/schooltransport)

## Apply for a school 2018-2019

### Pupils unable to walk to school

Some children with SEN and/or a disability may not reasonably be expected to walk even relatively short distances to school. Similarly, children with a mobility problem (including temporary medical conditions) may also be unable to walk to school.

To qualify for help, your child must be attending the **designated\*** school. We will need to see medical evidence from a consultant or GP who must confirm your child's medical condition and that your child cannot reasonably walk to school. Please note that a fee may be charged for supplying the medical evidence and you would need to pay any costs. We will also need to know how long transport assistance is required and an indication of what type of travel is appropriate. If transport assistance is agreed, your case will be reviewed regularly.

For more advice email [sen.transport@eastsussex.gov.uk](mailto:sen.transport@eastsussex.gov.uk)

### Disabled parents/carers of primary school children

If you are prevented from walking or accompanying your children because of a disability, we may be able to assist with travel costs.

To receive help, your child/children must be attending the **designated\*** school and, in deciding whether to assist, account will be taken of the distance to school. Where the distance is relatively short, assistance may not be agreed, especially for a child in Year 5 or 6.

You will need to complete an application form and attach medical evidence from a consultant or doctor which must not be older than three months from the date of application. Please note that a fee may be charged for supplying the medical evidence and you would need to pay any costs. Transport cannot be arranged until the medical evidence is provided. If transport assistance is agreed, your case will be reviewed regularly.

Transport assistance is not provided when parents are not available to accompany their child to school for other reasons. For more advice email [sen.transport@eastsussex.gov.uk](mailto:sen.transport@eastsussex.gov.uk)

### ► Travel assistance for eligible children

In most cases, we provide transport to get pupils between home and school at the beginning and end of the school day. This is done by supplying a ticket for use on public services or by allocating a seat on a hired vehicle.

If there is no suitable public service or hired vehicle, parents willing to make their own arrangements receive help with the cost of **two** return journeys per day. This is based on the distance between home and school. Payment is made on a family basis at the rate of 25p per mile since the cost will be the same whether a parent takes one child or more.

Mileage payments are not given to parents who prefer to make their own arrangements where there is a suitable public service or hired vehicle.

We may offer a personal travel budget for qualifying children and young people with Statements of Special Educational Needs or an Education, Health and Care Plan. These are offered at the Council's discretion when they represent a cost-effective alternative to the provision of transport.

Find more details at [eastsussex.gov.uk/SENDtravel](http://eastsussex.gov.uk/SENDtravel)

### ► When transport is not supplied

It is the responsibility of parents/carers to arrange and pay for transport outside the normal school day. For example, we do not provide transport for:

- Breakfast or after school clubs
- Parents evenings
- Fixed term exclusions
- School trips/educational visits
- Specific exam timetables
- Extra curricular activities
- Pre course visits or 'taster' days
- Off site educational placements
- Work experience/work placement

**It is our policy to withdraw any transport that has been issued in error.**

### ► How to appeal

Where applications for transport are refused, parents may appeal to the Discretionary Transport Appeal Panel. This panel comprises a small group of elected County Councillors who consider applications that fall outside of the stated policy. Assistance is only agreed in the most exceptional circumstances. The panel's decision is final and there is no further appeal locally.

Parents will need to fill in an application form and supply any supporting evidence. Visit [eastsussex.gov.uk](http://eastsussex.gov.uk) for more details.

# Support in further education

### ► Financial support from schools and colleges

There are two types of bursary available to help 16-19 year-olds continue in full-time education.

#### Vulnerable student bursary

Students can receive up to £1,200 if they're in or recently left local authority care, they get Income Support or Universal Credit in their own right, they get Disability Living Allowance (DLA) and either Employment and Support Allowance (ESA) or Universal Credit or they get Personal Independence Payment (PIP) and either ESA or Universal Credit.

#### Discretionary bursary

Schools and colleges have their own criteria for discretionary bursaries. They'll look at individual circumstances including family income.

### ► Help with travel for young people with special educational needs and disabilities (SEND)

In exceptional cases, students with learning difficulties or disabilities, or their parents or carers may apply for travel assistance. Each case will be considered by the council's Discretionary Travel Panel, and travel support will usually only be considered further if all the following criteria are satisfied:

1. The student must be attending a full-time educational course at the nearest (or most accessible) school or college to their home. If an alternative equivalent course is offered by an FE provider nearer to their home, the student will not be eligible for support.
2. The Council may fund transport to a college placement up to the academic year in which a young person reaches a maximum of 25 years of age.
3. The student must be travelling over three miles to their nearest appropriate provider, unless their learning difficulties or disability means they are unable to travel this distance either walking or on public transport (specific and up to date evidence from relevant health and/or educational appropriate professionals supporting the student will be required to assist the decision) and there is not a parent/carer who could make themselves available to take them.

If a student is able to be considered for travel assistance, factors the Council will take into account when determining whether a student is eligible for assistance may include, but are not limited to, the following:

1. The student is unable to travel to their placement by public transport, either unaccompanied or accompanied by a responsible adult (specific and up to date evidence from relevant health and/or educational appropriate professionals supporting the student will be required).
2. The family does not have access to a suitable vehicle, which may include a Motability vehicle, to transport the student to school or college.
3. The length or complexity of the journey and whether parents or carers could reasonably be expected to provide transport or act as a chaperone themselves. If parents/carers or other family members are not available this should be fully explained in the application. It is unlikely that broader family caring responsibilities will be considered as exceptional circumstances.
4. The student has been assessed by the Authority as requiring an escort, or as a 'high needs' case.
5. Other circumstances relevant to each case.

In all cases where assistance is agreed, a contribution towards the cost of travel is required for all 16-19 year olds. The standard charge in 2017/2018 is £608, although if there is no financial hardship or the Authority has not conceded that an independent placement is the nearest suitable provision, increased contributions could be required.

Low income families will be asked to contribute £304 per academic year. (Low income is defined on **page 19**). The annual contribution level will be reviewed each year.

The type of travel assistance provided will be the most cost-effective available to the Council at the time, appropriate to the student's needs. This may be one of the following:

#### **a) A place on a contracted vehicle    b) A Personal Travel Budget (PTB)**

Please note that taxis will usually only be provided in the most exceptional cases, and for students with severe disabilities and/or the most complex health needs. This may not be a door-to-door service.

Travel assistance is reviewed annually or sooner following a house move, change in placement or course, or a change in the student's needs. For more information and how to apply, visit [eastsussex.gov.uk/SENDtravel](http://eastsussex.gov.uk/SENDtravel)

# Need help?

All the information you need is in this booklet and online at [eastsussex.gov.uk](http://eastsussex.gov.uk) If you need further advice contact the Admissions Team.

► **The Admissions Team can:**

- answer detailed enquiries on the admissions process;
- discuss your application;
- let you know about home to school transport; and
- process applications for free school meals.

# Data protection

The Children's Services Department and schools hold personal information provided by parents/carers on computers and paper.

## ► How personal information about pupils is used

The Children's Services Department and schools use personal information given by parents or guardians to:

- provide and maintain school places for pupils;
- provide transport to school, if pupils are entitled to it;
- allocate pupils to classes, monitor progress with studies and to administer examinations;
- inform parents about the progress of pupils; and
- to inform parents about the arrangements for running particular schools and colleges.

The Children's Services Department keeps a database of personal information about pupils to support a number of services, such as:

- providing free school meals, if pupils are entitled to them;
- providing special education, including inter-authority re-charges;
- providing educational psychology, welfare and other support services; and
- planning for future school places and services.

## ► Sharing personal information about pupils

The Children's Services Department and schools share pupil information with the Department for Education (DfE). The DfE uses this information for research and statistical purposes, to inform, influence and improve education policy and to monitor the performance of the education service as a whole.

The Children's Services Department and schools also share pupil information with partner organisations to help them administer their services. For example, data may be passed to organisations such as Ofsted, the Department of Health and Primary Care Trusts.

## ► Security of personal information

Sensitive and confidential information is treated with appropriate security by all who handle it. There are minimum standards set out for all members, employees and service delivery partners for handling sensitive and confidential information. The Council's Information Security Policy covers the creation, acquisition, retention, transit, use, and disposal of all forms of information.

## ► Pupils' rights under Data Protection

Pupils or their parents/carers can ask to see the personal information schools and the Children's Services Department hold about them.

If you wish to see the personal information about you or your child held *by a school*, please contact the school concerned.

If you wish to see the personal information about you or your child held *by the Children's Services Department*, please contact:

**Data Protection Officer**
